DSA State of play

- Council adopted its position in November 2021, Parliament in January 2022.
- Both texts are disappointing and could end up making the DSA worse than E-Commerce.
- Trilogue started, aiming to finish at the end of April.

FEP action

- Coordinating with the other rightholders organisations to push back against the most dangerous parts of the text.
- Focus on search engines, stay-up, general monitoring, KYBC and exemptions.

DMA State of play

- Parliament and Council adopted their position end of 2021.
- Limited progress in both texts on FEP's priorities.
- Trilogue started, aiming to finish at the end of March.

FEP action

- Coordinating with EIBF and part of the AV sector.
- Meetings with the co-legislators and the Commission to explain our requests and suggest wording.

- The European Commission (DG JUST) has proposed an amendment to the General Product Safety Directive, which includes turning it into a Regulation.
- The GPSD/GPSR applies also to books. It covers all products not already subject to harmonised legislation (children's books covered by the Toy Safety Directive).
- The GPSR increases the obligations for manufacturers:
 - *draw up technical documentation of the product*
 - *keep the technical documentation for a period of ten years [...] and make it available to the market surveillance authorities, upon request*
 - *ensure that their products bear a type, batch or serial number or other element allowing the identification of the product which is easily visible and legible for consumers.*
- FEP position: the GPSR should recognise the existence of a series of products that are inherently safe (such as print media), for which the level of obligations should remain the same as it is currently under the GPSD. This would not reduce protection for consumers.

- The file is under consideration by the co-legislators – FEP replied to a consultation on the proposed text
- Main players in the EP: IMCO Committee
 - Rapporteur: Dita Charanzova (Renew, Czechia)
 - Shadow rapporteur: Marion Walsmann (EPP, Germany)
 - Shadow rapporteur: René Ripasi (S&D, Germany)
 - Shadow rapporteur: Kim Van Sparrentak (Greens/EFA, Netherlands)
 - Shadow rapporteur: Anne-Sophie Pelletier (The Left, France)
- Draft report IMCO: rapporteur took on board our suggestions on technical documentation (briefed by Czech PA)
- Good amendments by EPP group in IMCO and JURI on technical documentation
- Next steps:
 - Vote JURI opinion 28/02
 - Consideration AM IMCO 28/02
 - Consideration compromise AM IMCO 16-17/03
 - Vote IMCO report 28/03
 - **Time to lobby**

Context and procedure

- German Pirate MEP Patrick Breyer, with the support of Felix Reda, sneaked a pilot-project on “The impact of the Covid-19 pandemic on Education, Research and Library institutions: the role of copyright laws in facilitating distance education and research”.
- It uses Covid as an excuse to push for a reopening of the e-lending issue through a de facto impact assessment (likely made by copyleft-friendly people).
- It will be pre-assessed and graded by the Commission by the end of June.
- Pilot-projects that do not receive a good grade are not taken on board by the Parliament for the budget negotiations.

FEP action

- FEP will coordinate with other rightholders organisations to find a way to quietly pushback against this pilot-project.
- Alerting the Commission on the unjustified character of the pilot-project, the risks associated to it and the attempt to circumvent the Commission and the co-legislator.
- The E-lending study we are doing may provide timely data to show the Commission that there is no need for this pilot-project.
- Ideally, the Commission would give the pilot-project a bad grade, preventing it from ever becoming reality.

- European Commission's report on the consultation on the possible extension of the scope of the Marrakesh Treaty is expected soon
 - On other works than printed ones
 - For other disabilities
- European Accessibility Act
 - Few Member States have implemented the Act (they have until June 2022)
 - There should be no mandate for a standardisation body for ebooks meaning that ePUB3 has been accepted as a technical requirement
 - Key issues – backlist, liability of the retailers, training of the publishers, awareness of the other stakeholders
 - FEP accessibility working group's next meeting 29 April from 11.00 to 13.00

Creative Europe new calls for tender

- The European Commission launched on 8 February a call for proposals for 3 categories under the Culture Strand of the Creative Europe Programme to support European Cooperation Projects.
- The action integrates cross-cutting issues of **inclusiveness**, protection of the environment and gender equality as well as thematic priorities relevant to [the New European Bauhaus](#).
- Deadline 31 March 2022

- Report of the Open Method of Coordination of the Council
 - Translators on the cover

- The EU-UK Domestic Advisory Group on the Trade and Cooperation Agreement: a group composed of civil society organisations' representatives to advise the Commission on implementation of the TCA.
- Composition: 30 seats in total, 24 from civil society organisations and six from the EESC. The 24 seats are divided in 3 sub-groups: business, trade unions and NGOs; the business section is further divided into more sub-groups, one of which is for industry. FEP has a seat in the DAG in the industry section, representing the cultural and creative industries.
- We have raised issues related to trade disruption, regulatory divergence and problems with mobility of professionals as a consequence of Brexit. However, **we need to know from the members about specific problems with the EU-UK relations.**

- Safeguarding Media Freedom in the EU
 - Aim: to improve legal certainty and eliminate internal market obstacles, to increase the transparency, independence and accountability of actions affecting media markets, freedom and pluralism within the EU
 - We plan to take the opportunity to suggest the same to apply to educational, academic and scientific publishing
 - Draft replies in preparation, will involve educational publishing and OA WGs – **deadline 21/03**
- VAT in the Digital Age
 - Covers: VAT reporting obligations and e-invoicing; VAT treatment of the platform economy; single EU VAT registration
 - No reply planned
- EU Toolbox against Counterfeiting
 - Aim: to clarify the roles & responsibilities of right holders, intermediaries (e.g. online platforms, payment and transport services, domain name registries/registrars) and public authorities
 - No reply planned – possible joint remarks with copyright group of EUIPO Observatory
- Counterfeiting and Piracy Watch List
 - Reply submitted on 14/02

- Where we are: thematic units defined, completing learning outcomes and assessment criteria

FEP WINTER MEETING

Online, 14 & 15 February 2022
Day 2

IPA report

Tour de table

- Updates on the book market
- Implementation of the DSM Directive – Where does your country stand?

Möbius – [Video](#)

- In a nutshell: developing methods and tools to leverage the potential of prosumers in innovation processes, promoting user-centric and user-driven perspectives in the design and delivery of new enriched media experiences
- Role of FEP: information on industry practices and insights, testing with professional users, workshops, IPR aspects; dissemination
- **Several publishers interviewed, work under way**
- **Call for manuscripts just launched for the Mobius Book**
- **The main aim for us: figure how to engage the readers meaningfully in the book value chain (as writers, reviewers, influencers, marketers, sources of data)**

- **Publishers meet difficulties to get paper supplied**

- Excessively quick decline of the European capacity of production of graphic paper

- ⇒ imbalance of the supply and demand

- ⇒ generalized shortage

- Manufacturers fix quotas for paper delivery

But still cannot respond to recurring or occasional needs

- No ability to meet production hazards (breakdowns, strikes, weather...) or unforeseen needs (boost of sales, exports...)

- Badly anticipated stoppage of some paper productions

- shifts to other types of paper (possibly limited by some quotas)

- **Publishers meet difficulties to get paper supplied**
 - No confirmation of orders with a long term perspective
 - No respect of agreed delivery dates
 - Too low levels of stocks
 - Willingness of some paper manufacturers to amplify the production shift towards new markets despite this shortage period
- even more pressure on the market

- **Proposal: enter into a dialogue with the printing industry in order to discuss solutions**
 - FEP and INTERGRAF (printing industry) could enter into a dialogue with CEPI (paper industry)

While respecting competition law

- A first step could be to establish an overview of the situation and the constraints of each type of operator.
