

EnLit is an international non-profit network whose members invest in translation support programmes to give our literatures increased visibility internationally and in our respective countries or areas.

We strive for a dynamic, diverse and easily accessible literary landscape across Europe and beyond, focusing primarily on the entire book value chain – translators, authors, publishers, book sellers and readers – while also supporting other stakeholders.

To achieve our goals, we share information, invest in research and data collection, engage in mutual advocacy and communication, and set up collaboration projects.
